

Chihuahua Puppies

“Look at that one mom!” I said pointing. “We can’t keep all of them Nathan” my mom explained. I stopped and stared at all the little puppies squirming in the dog bed. Watching their soft hair brush on the dog bed I thought why can’t I keep one.

One Dog

"These puppies are almost 6 weeks they could be sold now," mom said tapping on her phone. One of the puppies waddled up to my foot and started licking my big toe.

One Dog

I sat down and next to the puppy and wanted the dog so bad I didn't even know that my mom was calling me. "Don't go to attached to that puppy Nathan," My mom said glaring at me waiting for a response. I was trying to think of what to say next because all I was thinking about was the puppy. "Ok mom," I finally said.

Persuasion

"But why can't I keep the dog?," I said confused. My mom was just watching tv then she lowered the volume to the point I could not even hear the man on the tv. "Nathan if we had they money you know I would let you keep him," Mom said looking at me calmly. Day after day, I tried convincing her but nothing will work for her I even said I would pay for the dog but she wouldn't crack.

My First Dog

Just when I lost all hope this happened. "Just two more dogs to sell," mom said explained. I was counting the puppies "What do you mean we have three more?" I said confused. Mom said, "Well... I know how much you wanted that dog so I decided to let you keep him," My mom said smiling. "Thank you but what about the money?" I said. Mom said, "well I'm sure we could cut back on some things." I hugged my mom and went to bed.

Chihuahua Training

"Come Stanley Come!" I said clapping my hands he looks at me in confusion and I sigh. "It's hard to train a dog trust me I know because I train them before I sell them," My mom said watching Stanley chase his tail.

Stanley

"Arf!" My dog Stanley barked as I was opening a can of dog food. While I was doing that I thought this could have never happened if my mom would have sold the dog but instead she let me keep him.

Stanley

I was about to set the dog food down, instead he jumped up and took it out of my hand. I was about to take it from him, but he already ate all of the dog food. Wagging his tail he walked over to me and went to sleep on my foot.

Chihuahua Training

I watched Stanley tripping over his own foot and looked at mom and said, "Umm you think you could help me train him maybe because you're a master at training dogs?". "You're lucky Nathan, ok I will help you but once so watch closely," Mom said. Days later, he was bathroom trained if I called him he would come.
