

Name \_\_\_\_\_

Choose a planet (Mercury, Venus, Mars, Jupiter, Saturn, Uranus, Neptune) or dwarf-planet (Pluto, Ceres, Makemake, Eris, Haumea).

Research your planet or dwarf-planet. Record what you learn about your planet on the next page cards.  
Each card must have three parts: a) the question, b) the answer, c) the source for the information.

1. Is it a gas giant or a rocky terrestrial?

2. Does it have moons?  
Name them.

3. Does it have an atmosphere? What is it made of?

4. What color does it appear?

5. Does it have rings? What are they made of?

6. What is its temperature?

7. How far is it from the sun?

8. Is it a planet or dwarf-planet?

9. How did it get its name?  
What does its name mean  
or signify?

10. Who discovered it and  
when?

11. Have humans or human-  
made objects traveled to,  
by, or on it?

12. What is its diameter?

13. How long does it take to rotate on its axis?

14. How long does it take to orbit around the sun?

15. How much would you weigh on this planet?

16. Does it have any mountains or valleys?  
Name them.
